

1-10DLP

Ride On Shot Blaster

1-10DLP

Ride-on Shot Blaster

The Blastrac 1-10DLP features an enhanced, trouble-free hydraulic drive system, offering better productivity when cleaning and preparing concrete or steel surfaces. The 1-10DLP shot blaster strips, cleans and profiles simultaneously and is ideal for ship decks, parking garages, industrial plant, warehouse floors, bridge and highway work, airport runways—improving macro and micro texture.

BLASTING PATH:
10 IN

MOTOR:
25 HP KOHLER ENGINE
LIQUID PROPANE

DIMENSIONS:
L 78 IN X W 34 IN X H 57 IN

WEIGHT:
1550 LB

PRODUCTION:
UP TO 2,500 SQ. FT./HR

RIDE ON

Key Points

- Patented paddle wheel technology
- Easy access twin dust trays for efficient debris removal and disposal
- Blast pattern accuracy and wide abrasive selection allows operator to achieve desired surface profile

Key Points

- Drying time and costly disposal procedures are eliminated
- Labor/time-saving shot blasting process strips, cleans and profiles the surface simultaneously
- Profiles with excellent bonding characteristics are produced, reducing coating failures
