

New and Improved PDG 5000 Planetary Diamond Grinder

The recommended vacuum for the PDG5000 is the SASE Bull 300

- ✧ Compact design is easily maneuverable for retail and residential spaces
- ✧ Includes QCS plates
- ✧ Connects to SASE BULL 300 for dust-free operation
- ✧ The head & motor can be removed from the frame for easier transportation
- ✧ Locking adjustment for angle of handle, no pins to lose
- ✧ Three flexible, powerful heads provide three points of contact to best follow the contour of the floor
- ✧ No special tools are required to perform routine maintenance
- ✧ Uses same base plates as the PDG 6000 200mm or 7 3/4"

- ✧ Completely sealed head means the PDG5000 can stand up to the toughest jobs, even with excessive dust or slurry
- ✧ Two 25 lb ballast weights included

Counter-rotating heads for planetary grinding that contours to the surface.

Technical Data

Item Number:	PDG5000.01
RPM:	Variable Speed 850 - 2000
Motor Output:	3.7 KW 5HP
Required Circuit:	1Ø, 230 V, 30 Amp 3Ø, 230 V, 30 Amp
Grinding Width:	20" Grinding Path
Grinding Pressure:	218 lbs w/o weights
Weight:	368 lbs with weights
Dimensions: <i>handle extended</i>	54"Lx21"Wx34"H
Dimensions: <i>handle folded</i>	35"Lx21"Wx34"H

* 318 lbs w/o the two removeable 25 lb weights
